

HYDROSCAND T3012 TWIN YELLOW

1058Y

Product group	120
Inner tube	Seamless polyester elastomer
Cover	Durable oil resistant polyurethane
Temperature min. °C	-40
Temperature max. °C	+100
Media	Oil
Reinforcement	One or two layers braided aramide (Kevlar) and one layer braided steel wire
Safety factor	1:4
Applications and characteristics	This hose is suited for hydraulics with very high pressures, e.g. high pressure pumps and heavy duty applications. Due to the inner tube of polyester, the hose will retain its flexibility in cold temperatures. NOTE! The maximum temperature for air and water is +70.
Design	Yellow cover, pin-pricked
