

P.T.F.E HOSE

1091-01

Product group	110
Inner tube	Corrugated P.T.F.E. (Teflon®)
Temperature min. °C	-54
Temperature max. °C	+260
Media	Oil and gas, air pressure, chemicals, water
Reinforcement	Single stainless steel braid, SS2330 (AISI 304)
Safety factor	1:4
Applications and characteristics	A very flexible high pressure hose due to the convoluted inner tube. The hose is suitable for most installations in demanding environments. Large chemical resistance range, low friction, and wide temperature range. Age resistant.
Ferrule	4200-30-xx, 4200-30-xxS
