

P.T.F.E. HOSE, CONVOLUTED TAPED

1094-00

Product group	110
Inner tube	Smooth P.T.F.E. (Teflon®)
Temperature min. °C	-60
Temperature max. °C	+260
Media	Chemicals
Reinforcement	One braid of stainless steel wire, SS 2330
Safety factor	4:1
Applications and characteristics	A very flexible high pressure hose due to the convoluted inner tube. The hose is suitable for most hazardous environments. Large chemical resistance range, low friction and wide temperature range. Age resistant.
Ferrule	4200-30-xx, 3800-30-xx
