

## TWINSKIVE 5-50

9082-02

<b>Product info</b>	TwinSkive is a semi-automatic PLC-controlled skiving machine for external and internal skiving at the same time. The machine can easily reduce your skiving time by 50% and is very reliable and easy to use.
<b>Product info2</b>	A centering system assures that the hose is correctly aligned during the entire skiving and inserting process. The machine can also be used for inserting fittings and internal or external skiving separately.
