

STUCCHI MULTICONNECT

5SDP2

Product info	2 gates
Product info2	DP type
Product group	520
Type	Hydraulic
Manufacturer	Multiconnect

Applications and characteristics

This multi-connect fitting can be used on all types of applications when there is a need to change multi-lined tools, on for example snow ploughs, excavators and cranes. Quick: Connecting and disconnection 2 to 10 hydraulic lines in one instant. Can also be connected during working pressure. Versatile: Can be used for both hydraulic and electrical applications. Environmentally friendly: Drip-free fittings minimizes leakage and prevents dirt from entering the system. Safety: Precludes faulty connections.
